Except where noted, most items INCLUDE 2 LINES OF ENGRAVING. An average line of engraving is approximately 25 to 30 letters/spaces per line, although this can vary depending on the font. We can get most copy to fit, but the letters could be smaller or more condensed. Our goal is to engrave as big as possible for the proportions of the plate. See individual items to determine how many lines of engraving are included in the price.

(The QUANTITY will always be 1 unless the engraving is identical.) **FOR ENGRAVING ACCURACY PLEASE PRINT ALL INFORMATION AS NEATLY AS POSSIBLE.**
